

THE SCINDIA SCHOOL, FORT GWALIOR

# REVIEW-17

SATURDAY, 15 JULY 2017 | WPP : REGN.NO.GWL.DN.11

## FORT NEWS

We welcome our readers to the new term and year. The weather on the Fort was humid in the last of June as the teachers arrived on the Fort. In a few days the Rain Gods had mercy on us and thrice it has rained and quenched the thirst of the parched land. After this brief interview with the rain, the Fort stands bejeweled and decked with beauty of the green cover wherever the eye meets the view. The *taals* have been cleaned and readied for the arrival of the rain. Our task is that every drop of water must be preserved. After all, water is an elixir of life.

As the season is changing its mood; the school life bustles and flourishes again with the classes starting and the new promises that we make at the start of every session, with ourselves, teachers and most importantly, to our parent. Hope, we keep these promises and make an effort in that direction.

The CBSE Board has of late has been an intruder into our peace with its decisions of taking back the moderation policy. But the new session! The junior school students enjoy coming back to the school for they were missing the 360 degree view of the Fort which our cities of concrete cannot offer. The senior school students think of it as a second home where there is no parent but there are guides and mentors.

In the meanwhile, many developments have taken place since our last meeting.

The School's Hockey team recently participated in the inaugural 'United for Hockey' (UFH) Invitational Cup held from 15th – 16th April 2017 in New Delhi.

In jubilation.

The tournament brought together four premier boarding schools namely, The Doon School, Dehradun; Mayo College, Ajmer; Welham Boys' School, Dehradun and The Scindia School, Gwalior. The school team won the Runner Up Trophy and Chopel Bhutia was awarded 'Best Defender of the Tournament'.

A time trial of the School's two 100 meter sprinters namely, Himanshu Moojoriya and Anurag Yadav was organised at LNIPE, Gwalior on 20th April 2017. They competed against a sprinter of the esteemed university. Both the sprinters ran in a spectacular fashion and created their personal best. Himanshu Moojoriya and Anurag Yadav completed the 100 meters distance in 11.52 seconds and 11.86 seconds respectively.

The Annual Hindi play entitled *Bakri* was staged on 13th April 2017. The play was a satire on politicians and their corrupt practices. It depicted how the gullible villagers get duped by them and do not even have faith on an educated

A still from the Hindi play.

man who comes to their rescue. The play ends on a positive note where the villagers finally get their dues.

The Annual House Report Evening of the Junior Houses was held on 21st April 2017. Prizes were awarded to the deserving students of each of the four Junior Houses for their outstanding performance in both sports and academics.

The Ramanujam Society, under the aegis of Pi-Club, conducted various competitions for the Junior Group (Class IV, VII & VIII of Junior Houses), Middle Group (Class VIII Senior Houses & Class IX) and Senior Group (Class X, XI & XII). The results are as follows:

*Junior Group:*

I Dattaji    II Jankoji    III Kanerkhed    IV Nimaji

*Middle Group:*

I Shivaji    II Mahadji    III Daulat    IV Jayaji

*Senior Group:*

I Daulat    II Jayaji    III Jayappa    IV Ranoji

Advait Jain brought laurels to the school by scoring the highest in Science in the national level benchmarking ASSET test of Winter 2016. The main purpose of ASSET is to help students identify their strengths and weaknesses. Teachers and parents also get to know their students better through this test and hence they too can contribute better in their learning process. The top performing students are rewarded so that they can inspire their classmates to strive for the same. Congratulations and way to go Advait!

In the National Astronomy Challenge 2017, Prakhar Agarwal, Advait Jain and Aaryan Nagpal made us proud by securing the highest grades from the School.

Mr Kamlesh Singh was a part of a month's 'Faculty Development Programme' from the 24th of April to 30th of May 2017. The programme was held at Indian Institute of Management, Indore.

Six students along with the teacher escort, Mr Akash Sharma had the opportunity to go for the residential project at Spiti under the 7th Spiti Gold Residential Project of IAYP.

A week long Special Conditioning and Football Coaching Camp was organised at Paljor Stadium, Gangtok, Sikkim from 9th to 17th June 2017 for the School's

At the Paljor Stadium.

Under 17 Football team at Paljor Stadium. 18 students of the School football team learnt soccer skills, moves and strategies from the former Indian Soccer Captain and former European league player, Baichung Bhutia.

A number of summer programmes were taken up during the vacation of May and June 2017.

Ms Sangeeta Jain along with 8 students went for the 'USA East Coast Trip Programme' from the 9th to the 19th of June 2017. The aim of this programme was to give exposure of education and career opportunities in USA.

Mr Dhiraj Malik along with a group of 15 students went for the 'Paris Educational Tour' from the 21st May to the 31st May 2017. The purpose of the trip was to give the students of French language an exposure to the French culture. During the trip the students stayed with the French host families thereby getting an experience of the French lifestyle.

The Investiture Ceremony for School Prefects was held on the 11th of July, 2017. Snehil Tripathi took the oath as the Senior School Prefect and Kabir Saund took an oath as the Deputy Senior School Prefect. Pavan Jaini, Keshav Saraogi, Yohen Thounajaom, Prasoon Naithani, Suryansh Goyal, Harshit Bhargava, Satyam Singh Gurjar, Aadya Mishra, Madhav Agarwal and Nirmal Vikamsey were inducted as School Prefects.

The Scindia School, for the second time in a row, organized the Regional (South Asia & Gulf) Round Square Service Project at Thiksey village in Ladakh from 25th June - 10th July 2017. 31 students and 8 adults from 11 schools participated in the Service Project. Volunteers arrived from the length and breadth of the country and also from a couple of countries in Europe as well. Apart from service, the programme also included a very demanding trekking

Round Square Service Project at Ladakh.

expedition. Mr Vishesh Sahai from the Scindia School was the Project Leader of both the endeavours and Mr Tony Hyde, Honorary Member - Round Square was the Project Mentor. The volunteers worked laboriously for seven days and built two rooms for office usage at the Lamdon Model School in Thiksey village. Volunteers trekked through the Ladakh mountains and stayed for two nights in the tents. The group achieved the commendable feat of trekking through the Kandala Pass which is at a height of slightly above 5000 Meters from the sea level. The visit to the breathtakingly beautiful Pangong lake was a memorable experience for all. The entire group returned with a great sense of fulfilment and with high words of praise for Scindian initiative and leadership.

Mr Anil Pathania along with 12 students went for a trek up to Everest Base Camp to height of 18000ft. The team returned by 22nd May 2017.

Mr Jagdish Joshi along with a group of 18 students attended an Adventure Course at ABVIMAS, Manali.

10 students attended 14 days' Adventure Course at NIM, Uttarkashi. 10 students attended 14 Days' Adventure Course at HMI Darjeeling. Detailed reports of all programmes are attached in the same edition.

The Scindia School organized two 'Roadshows' in the month of April in alliance with the SOBA chapters of Kanpur and Benares. First one was held in Kanpur on the 15th of April and the second in Benares on the 16th of April. The School presented a cultural evening entitled - 'An Evening with Scindians: Yesterday, Today & Tomorrow' at the Ragendra Swaroop Memorial Auditorium for Performing Arts, Civil Lines, Kanpur. Justice Sanjay Mishra, Hon'ble Lokayukta of Uttar Pradesh and an eminent Old Boy of The Scindia School was the Chief Guest for this occasion.

The same cultural programme was repeated in Benares on the 16th of April, where the Chief Guest for the programme was Prof Prithvish Nag, Vice Chancellor Mahatma Gandhi Kashi VidyaPeeth who also has an additional charge as Vice Chancellor, Gorakhpur University.

The purpose of these Roadshows was to connect with the Old Boys of The Scindia School based in Kanpur, Benaras and nearby cities. It provided our boys with a wider platform to showcase their talents. It was also an endeavour of the school to raise awareness about the importance of Boarding schools in the current scenario of education. A traditional Boarding School's welcoming and challenging educational environment, close care and guidance, and encouragement to engage in all aspects of school life are the very principles of a boarding school that were emphasized upon.

The highlight of both of these evenings was a Play, a home production, prepared and produced from scratch in just about 20 days. The script of the Play captured our students' experiences at school and had emerged from a thorough process of introspection and self-exploration. The students reflected on the most cherished and impactful memories of their school life and strung each experience into the story of the Play with constant improvisations. Therefore, the Play truly represented the life of students at The Scindia School. The Roadshows were a huge success due to the ever helpful Old Boys, without whom, this endeavour would not have been possible. We would like to thank all the Old Boys who contributed in thought or action for the success of this programme. Our heartfelt gratitude is due to the Old Boys of both the SOBA chapters who worked tirelessly for the success of this programme.

A still from the play.

## A Report on the Expedition to the Everest Base Camp, Nepal

Rhythm Kukreja | X C

Do mountains fascinate you? Have you ever thought of climbing it, especially the Everest? Do you fear death or is life more fearful? A group of 14 bag-packers were ready to unravel such mysteries post a few training sessions; and all set for their fifteen days' long adventure trip.

On 7th May 2017 we arrived in Kathmandu at Tribhuvan International airport, a team of 13 members comprising both teachers and students. We met our representatives and were transferred to the hotel for night stay. The day after, we prepared ourselves for a trek in Kathmandu and the very next day we flew to Lukla in a plane. Lukla is considered to be the world's most dangerous airport as the runway is on a mountain with dangerous swamps at both sides. Post our arrival at Lukla, the trek was mainly downhill following the river to Phakding. It was almost 3 - 4 hours of steady walking that we did.

On 10th May, the trek began from Phakding to Sherpa which is the capital of Namche Bazaar and almost at a height of 3400 meters. Post 6 hours of brisk walking the rest of the day was free to be explored by students. It was a stiff climb for almost 500 metres and it took almost 4 hours to cover the same. Next day was reserved for rest and acclimatization in Namche with an optional hike to the viewpoint of the Everest, Lhotse and Amadablam. Two days' stay at Namche was helpful in acclimatization of body that helps in getting used to the weather, atmosphere and temperature because in the process we trek at the same height for a few hours to make our body adjust to the temperature outside.

On 12th May the trek to Thyangboche began, which is at the height of 3860 meters and is located on a ridge. The place is just below the impressive

Mr Anil Pathania with the boys.

north ridge of Kang Taiga. It was almost an 8 hour climb with 300 metres of stiff climbing followed by a trek to the seasonal settlement of Dingboche at 4410meters. It was at the entrance to the Khumbu Valley and required 6 hours of walking at a stretch. With a night halt at the camping village; life was not as easy. On May 14, post acclimatization the walk began towards Imja Valley which offered a fantastic view of Tibet. The group then returned to Dingboche and on 15th May had a short day trekking beside the Khumbu Glacier to the lodges at Lobuche at 4910 meters. It was a 3 hours' walk.

The Trek to Everest Base Camp at 18,000 feet was surely a spectacular sight; something everyone should do once in a lifetime. The group began its journey on 16th May, following the Moraine and Khumbu Glacier and returned to Gorakshep after 8 to 9 hours of walking. A walk on the glaciers is certainly a walk to remember even though the way is tricky and the constant fear of a landslide keeps you on careful toes. The trek to Pangboche, gave us the view and visit of the monastery followed by an alternative high trail to Phortse at 3800 metres, post 6 - 7 hours of walking. On 19th May the trek was via Mon La to join the main Everest trail to Namche Bazaar and the group had an overnight stay in the Sherpa capital. Finally, on May 20th downhill trekking was done beside the Dudhkosi River, with a final short climb to Lukla and on 21st May the group flew back to Kathmandu and checked into the luxuries of a hotel with full day rest followed by sightseeing and shopping. The journey ended on 22nd May at the Kathmandu Airport.

In the sylvan woods.

## A Report on the Residential Project at Spiti

Moksh Jaswal | XI C

The International Award for Young People (IAYP) is an award which helps young people to achieve their potential and develop into responsible citizens. It motivates them to challenge themselves in different fields including social service and adventure. The Award has three stages - Bronze, Silver and Gold. For someone who aspires for the gold award, one needs to fulfill the requirements, which includes physical recreation, social service, adventure, skill development and most importantly, residential projects.

This year, I, Moksh Jaswal, along with 5 other students namely Kartikey Agrawal, Mukund Agarwal, Mani maloo, Prabhav Nandiwada and Raj from The Scindia School along with our escort teacher Mr Akash Sharma had the opportunity to go for the Residential Project as a part of the IAYP gold award. The project was organized by Ecosphere and was held from 2nd June to 17th June in Lahaul Spiti, Himachal Pradesh. Ecosphere is a social enterprise, founded and run by Mr Sunil Chauhan and Mrs Ishita Khanna. It works on the concept of sustainable development in the Spiti Valley and organizes various projects for volunteers.

As coordinated by Ecosphere, our group started the first leg of its journey on 2nd June in a bus ride from Delhi to Shimla. The second leg of the journey was from Shimla to Kaza, where we met our coordinator and were briefed about

Mr Akash Sharma with the team.

our project. We reached the project site after completing the journey on 6th June, at a village named Pang Mo, at a distance of 30 kms from Kaza.

This year our task was to help build a greenhouse for a local family in the village. We started our work on the 6th of June and finished it on June 15th, working every day from 9a.m. to 5a.m. After toiling for 7 days the Greenhouse was ready and was inaugurated on 15th June by the Head Monk of the local monastery.

We also went for a trek from 10th to 13th June, covering a distance of 25 kilometers through the steep hills in 3 days and had the opportunity to visit the highest motorable village of the world named Komic and the highest Post Office of the world named Hikkim, while trekking through the black mountains of the middle Himalayas. The trek gave us an insight about the survival of life in the charming yet difficult terrain, which remains closed to the rest of the world for the most part of the year due to snow.

We started our return journey from Kaza early in the morning on the 16th and reached Manali via Rohtang Pass after a 14 hours' drive where we boarded our bus for Delhi. We arrived at Delhi on the 17th. During this brief period of time we could experience the serenity of Himalayas by mentally comparing it to the hubbub of Delhi as we traversed between two strikingly different temperature zones of 4°C and 46°C.

At the project site.

## A Report on the Career Exploratory Programme, East Coast, USA

Shubhmanyu Lahiri | IX B, Yashovardhan Dikshit | IX D

The Career Exploratory Programme, East Coast, USA was specifically meant for the students. 10 students along with Ms Sangeeta Jain, HOD -Faculty Science, attended this programme from the 9th June to 20th June 2017.

The objective of this programme was to explore the career opportunities at the places visited. The group contained students with classes varying from 8 to 11.

From India we flew to New York and then to Orlando. Visit to Kennedy Space centre, NASA was for the duration of two days. The first day we took a bus tour of various workstations at the tour guide. The centre uses the latest technology for space research. Amazing enough, they not only do space research but also conserve wild life, which was very conspicuous to us, in this visit. The next day, we visited Rocket Garden, 3D IMAX films on Space, and Atlantis Exhibitions. The best part of this visit was the simulation of Shuttle launching. The day was a memorable day for all of us as we lunched with the astronaut, Kem Cameron. He gave a presentation on his journey to space. He also interacted with the students. We were surprised to know that the 'Visitors Section of Kennedy Space Centre' runs on the fee collected by visitors. Students received a lot of knowledge on the careers in Aerospace Engineering.

In the next two days we visited the Island of Adventure and Sea World. The mesmerizing show of dolphins and the aquariums was a part of the 'Sea World'. We discussed about the careers related to Water Conservation Specialist, Ecologist and Adventure.

Next was the visit to beautiful natural Water Fall – the Niagara Falls. We were wonderstruck to learn how tourism plays a vital role in inflating USA's economy. There was another career in store for us which we could in future lay our hands upon.

Next visit was like dream come true- the visit to MIT and Harvard University in Boston. We had a student guide from both the universities and both of them were students of Physics. They explained to us the admission procedure, various courses offered and also about the culture of the universities. It was raining heavily during the visit to Harvard, but the aura of the place was so overpowering that it didn't affect any of us. We also got know that both these universities have only need- based scholarship. During exams the students are really stressed and hence the university plans the activity just a day before or on same day to release the student's stress. We visited almost all the departments of the university and also got to know how these universities came into existence. Structural Designing was another career that we looked into.

We visited Madam Tussad's Wax Museum, where students clicked lot of pictures with the wax statues of many iconic celebrities. Here students were asked to analyse Art as a career. All the students were left in the Times Square for shopping of souvenirs. The next day we had an exciting workshop on Broadway which is an organization that has many actors who put up plays at different venues. In this workshop they asked the students to concentrate on three things -body, mind and voice. The conveyor helped us in doing some exercises to make the body and mind active; and also for voice modulation. The careers discussed were not only of an actor but also Film director and Artistic Director.

Our facilitator, Ms Kriti Chopra was there to talk about all the careers and subject choices. She also gave us the information about courses and the skills required for the specific careers. She gave the worksheet to the students to fill in after every visit.

It was an unforgettable experience for all of us.

## An Interesting Journey!

Mr Kamlesh Singh, Faculty in Psychology

**“Students don’t remember what you try to teach them**

**They remember you for what you are”- Jim Henson**

It was an unforgettable experience to be the part of a month’s Faculty Development Programme from the 24th of April to 30th of May 2017. The programme was held at Indian Institute of Management, Indore (IIM, Indore).

Living in the purlieu of the scenic campus of IIM Indore, and to be taught by the accomplished faculty was like living your most cherished dream. The programme is essentially designed for teachers of management and allied subjects like Commerce, Economics, Finance, Psychology, Sociology and so on...

About 100 sessions in 13 Subjects were conducted over a period of 35 days! Subjects like Pedagogy and Negotiation, Research Methodology, Communication for leaders etc. were taught to us. Special emphasis was on research and teaching. It was indeed a difficult task to become students!! Listening to lectures for around 4 hours a day made me relive my school days.

Mr Kamlesh Singh

The faculty members grilled us well by making us do a lot of home work in the form of ‘reading’ before starting of the lectures. It was immensely enlightening to know of some interesting methods of teaching like Simulation. We were fortunate enough to get to know about the simulation games coordinated by Harvard Business School. It allows students to take decisions based on different variables present in the market.

The professors made us understand how certain complex subjects could be taught with the help of simple tools all around us but most often we hardly have an understanding of how to use them. We realized the two most powerful assets that teachers have out of which they can engage their students fruitfully; to quote the masters, “To make known things interesting, and interesting things known.”

An interesting session was taken by the Director of IIM, Indore, Prof. Krishnan who focused on the need for good teachers and how teachers must upgrade themselves.

The discussion was based on the needs of the changing education scenario. He also emphasized that teachers must instill reading habits in their students. The Faculty Development Programme provided me with a new perspective towards education and teaching. I am hopeful that it would add value to the exercise of teaching.

For me it was an interesting journey and I hoped it would never end.

Rapt in attention.

### Welcome Aboard

Wg. Cdr. Vivek Saxena (Retd.) has joined us as the Bursar w.e.f. 15 May 2017. By way of introduction, Wg. Cdr. Saxena was commissioned in the Administrative branch of the Indian Air Force and has an experience of working with Indian Air Force for 27 years.

After his retirement Wg. Cdr. Saxena worked with Havells India Limited for one year and later on 01 Feb 2013 joined UFLEX LTD (FILMS DIVISION) – A total Flexible Packaging Solutions company in NOIDA where he was responsible for all Personal, HR and Site Administration matters in the entire plant – comprising of about 900 personnel.

Mr Ashish Arora, Mr Satyakam Singh Tomar, Ms Kamna Singh, Ms Kirti Srivastav, Ms Nandita Saxena, Mr Nitesh Jain, Mr Pawan Mali and Mr Hemant Soni have also joined us. We wish them a fruitful tenure in the School.

### OBITUARIES

With profound grief and sorrow, we announce the demise of Air Commodore Shekher Chauhan, Vayu Sena Medal (Ex-Siddharth/Vivekanand, 1982). He passed away on 18/06/2017 in Delhi after a spirited battle with cancer. He was an outstanding officer and a thorough gentleman. May God give his kind soul peace and strength to bereaved family and friends.

My Yash Kumar Singh Kasliwal (Ex- RN, 1964), passed away in Indore on 11-7-2017. He is survived by his wife, a son and a daughter. Condolences may be sent on contact no. 9826044480. May his kind soul rest in everlasting peace.

## A Report on Manali Adventure Course

Aditi Joshi | IX D

On 26th of May 2017 a group of 18 students with the teacher escort, Mr Jagdish Joshi headed towards Manali for a ten days' adventure course at The Atal Bihari Vajpayee Institute of Mountaineering and Allied Sports. It began with the allotment of dorms. On the first day our programme began with a rock climbing session. We were given information on mountain safety and hazards, ropes and knots, camping and hygiene in all its accurate detail. The next day, post breakfast, we rappelled down the same rock. In order to explore the beautiful valley, we were taken to the famous Hidimba Temple. It is an ancient Cave Temple dedicated to Hidimbi Devi, wife of Bhima in the epic Mahabharata. It was followed by an outing at the streets of Manali exploring the place. After a comfortable night's sleep we were all set for our 16 kms. trek to Solang Valley. We had a two nights' stay over there. It included a visit to the great Anjani Mahadev Temple. With the biting chill on our back and the temperature dropping to as low as zero degree Celsius, we continued to acclimatize, walking to Patalsu Valley on the next day. Due to inclement weather, we started late for our next camp at a place called Dhundi. There we were issued utensils, sleeping bags, inners etc. The tents were allotted to us and we were given enough time to rest. Post lunch, we visited SASE (Snow and Avalanche Study Establishment). To get familiar with the local people we played cricket with them. The next day, we trekked to a peak at a height of 11000 ft. approx. where we enjoyed the snowy weather in the summer season. The next day, we descended to Solang for the last activity which was river crossing. Finally, after reaching back to the base camp at Manali, we interacted with two famous female Everest climbers - Dicky Dolma and Anuradha Devi; a meeting which will find place in our hearts forever.

Mr Jagdish Joshi with students.

## OLD BOYS' NEWS

Mr Rajendra Pawar (Ex-Vivekanand, 1967), Vice President of the Board of Governors of The Scindia School visited Nagpur recently and met members of SOBA Nagpur over a cup of tea. Mr Pawar stated that the School needs the participation of Scindians in all developmental activities, and urged them to volunteer for the same. He also urged Scindians to volunteer and be a part of various sub-committees of the School Board to contribute to the overall progress of their Alma Mater.

Present on the occasion were :

Mr Sandeep Agrawal (Ex-Sh, 1980) - President - SOBA Nagpur

Mr Arjun Dhanwatay (Ex-Ja, 1980) - Vice President - SOBA Nagpur

Mr Ashish Bansal (Ex-Jp, 1987) - Secretary - SOBA Nagpur

Mr Sachin Chanchani (Ex-Sh, 1976)

Mr Aditya Pratap Shah (Ex-Md, 1979)

Mr Sanjay Arora (Ex-Md, 1980)

Mr Krishna Rathi (Ex-Ja, 1983)

Mr. Harish Bhojwani (Ex- Madhav, 1995), Industrialist, Member - Board of Governors -The Scindia School, Member of Board of Governors- Rajmata Vijaya Raje Scindia Centre for Development has been awarded GWALIOR RATNA ALANKARAN for Outstanding Young Person Award of Gwalior - 2017 for his outstanding Achievements in the Category of Business, Economics and Entrepreneurial Accomplishment.

Aditya Sharma( Ex Jp, 2014) has successfully taken admission into University of Oxford to pursue Masters in Social Anthropology. A Tata Trust scholar he will be joining St Antony's College at Oxford, which is known for its legacy of producing stalwarts in the field of Journalism.

Akash Jaini (Ex Ja, 2016) participated in the Abu Dhabi International Men's Open 2017, and won 1st place in the tournament. The tournament was held in the Abu Dhabi Golf Club from March - April 2017.

SOBA Nagpur.

## A Report on the Educational Tour to France

Gatik Bhonwal | VIII A

The Scindia School organised an educational trip to Paris for 10 days with the purpose of giving exposure to the students about the various cultural aspects of France. The group consisted of 15 students accompanied by our French teacher, Mr Dhiraj Malik. We left for Paris on the night of the 20th May from Delhi via Mumbai to Paris. The entire group stayed with several host families thereby gaining a rich experience of the daily lifestyle of a French family.

The students would travel to Paris and attend French beginners' course for initial 5 days studying for 2 hours daily. The rest of the day would be spent in visiting some famous French monuments and museums. One entire day was dedicated to visit a theme based amusement park called "Park Asterix".

We visited many places in Paris. In The Paris Story Museum we watched a 50 minutes' show which was about the history of Paris. The Grevin Wax Museum which houses a great number of wax statues of world famous personalities and the Eiffel tower were two great monuments that we visited.

'Bateaux Mouche' on river Seine refers to the one hour ferry boat ride which gave us a chance to explore the scenic beauty of Paris. We also visited 'Champs Elysees', the famous road where the annual Bastille Day Parade is carried out. While 'Place de la Concorde' is the central point of overall ministries of French Government, 'Arc de la Triomphe' is the monument built to celebrate the victories of Napoleon Bonaparte.

The 'Louvre Museum', is one of the greatest museums dedicated to art work showcasing the famous Mona Lisa painting and the Notre Dame Cathedral is a very ancient and symbolic church of France where the Crowning Ceremony of Napoleon Bonaparte was carried out.

We also saw the Versailles Castle which had been the centre stage of the French revolution and also the royal palace of the King, Louis Philippe 16th.

The group left Paris for Delhi via Abu Dhabi on the night of 30th of May and reached Delhi on the morning of 31st of May.

Group Photograph.
